Thanks for the update. Please let me know if you have any questions about the site, I'm pretty familiar with it.

EPA Removals did a removal action during the SI/HRS phases. Someone from their department may have additional site access information.

Thanks,
Rebecca

Hi Rebecca,

Thanks for contacting me. I had been given your name and was considering contacting you. My current plans for the site are to develop a SOW and file the paperwork to get a contractor working on the site. I am still reviewing documents related to the site. We had a brief call with a representative of the city of Dallas about 2 weeks ago. That is all that is going on so far. I will probably need to do a community meeting sometime in August or September. I am still new to the site so this is all I have planned at the time. I will keep you informed when I have additional information.

I have no additional information on site access. This is something I need to work on.

Hello,

I'm contacting you because I am the TCEQ Project Manager for Lane Plating Works, and I wanted to introduce myself and touch base with you on this site. I was also the PM during the site PA, SI, and HRS phases. Now that it's been listed, are there any activities planned for the site?

I also wanted to verify some information with you regarding access to the site – we are having to update access information for all of our sites in preparation for hurricane season. I've listed the access information I am aware of for this site. Please review, and let me know if anything has changed (I'm not sure if EPA controls the locks to the site now that its listed on the NPL):

[Lane Plating Site Access Information:](#)

There is a keyed, locked chain-link fence on Bonnie View Rd. at main site entrance. TCEQ PASI previously gained access through gate from TCEQ Region 4 during PA and SI phases. For access, contact EPA RPM and TCEQ Region 4. The City of Dallas should also be notified of site activities. Contacts listed below:

RPM: Kenneth Shewmake (214) 665-3198 (shewmake.kenneth@epa.gov)

City of Dallas Contact: Lori Frauli Trulson (214) 671-8967 (d), (214) 670-1200 (o)
(lori.trulson@dallascityhall.com)

City of Dallas Parks and Recreation Department Contact: Jonathan Johnson (214) 671-1293
(jonathan.johnson@dallascityhall.com) - for access/questions about nearby parks (SW pathway).

Site owner (just in case, not a primary site contact): (214) 535-4314; (214) 371-1351 - Joe Lane

Thanks,

Rebecca Storms, P.G.
